Use Of Collaboration

Figure: 1.Improved Flexibility of the team working

Use Of Collaboration

Figure: 2. Frequent Communications with team members

Use Of Collaboration

Figure: 3. Reminding the goal

Use Of Collaboration

Figure: 3. Growing as a Team

Critical Situation

Figure: 1. Time Management

At the beginning there was no time management schedule. So, we decided one day for the work small time slot for everyday to discuss.

Critical Situation

Figure: 3. long-term thinking

Everyone is busy, but just being busy is not enough. Long-term project success requires long-term thinking. Thus, contacted senior students for suggestions.

Critical Situation

Figure: 2. Experience

Our team has very small and no experience at all. Thus, contacted senior students and experienced family members.

Reuse Potential

Figure: Requirement

We can use requirement in similar projects.

Expect Accountability

Figure: Accountable

A team without accountability measures will be collaborative in a way that isn't as helpful to team performance as it could be. We Ensure that the goals are set, that team roles are defined... and THEN encourage the team to collaborate..

Lessons Learnt

1. Have a clear goal
2. Don't give up on any member support them.
3. Be flexible
4. Complete task before the time, so everyone can verify each other work.
5. Solve all concepts related to the project.
